80,000 square feet of experimental learning spaces

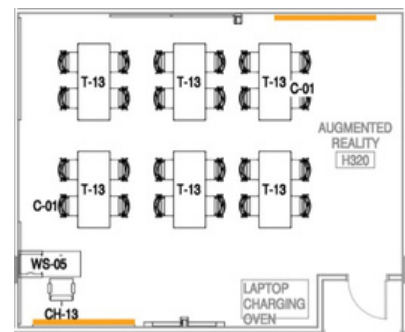

\$2,886,000
Goal

The Pima Community College Center of Excellence in Health Professions is dedicated to forging a transformative path in health education. Our mission is to provide dynamic and interdisciplinary educational pathways that empower students to excel in their chosen health professions. Through innovative teaching, collaborative research and a commitment to holistic education, we strive to shape compassionate and skilled healthcare leaders who meet the evolving needs of individuals and communities.

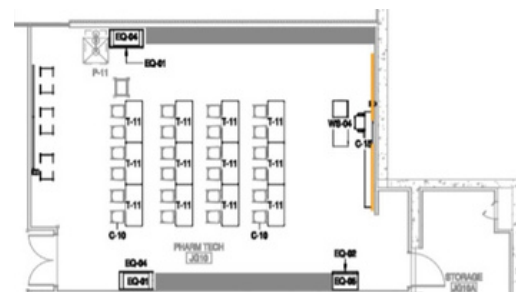

True to Pima Community College's mission to "empower every learner, every day, for every goal," this cutting-edge hub is poised to redefine education and training in the health professions. The Center will foster interdisciplinary learning through advanced technologies, including augmented and virtual reality (AR/VR) tools, immersive simulation labs and state-of-the-art healthcare equipment like Anatomage and Syndaver. These resources, integrated within over 80,000 square feet of experimental learning spaces, create a 21st-century educational experience unlike any other in the region.

Simulation Center - \$1,443,000
3,276 ft² combined space

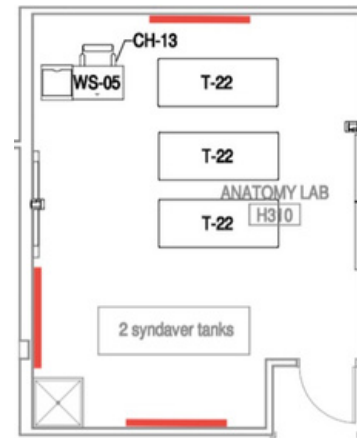

Mixed Reality Lab - \$55,000
714 ft²

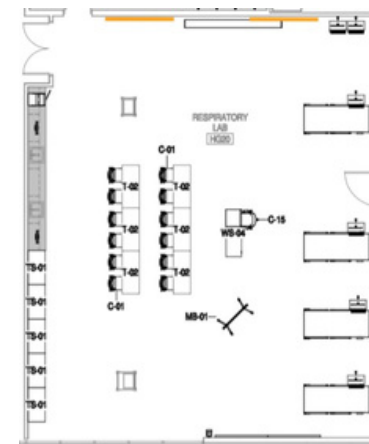

Pharmacy Technology - \$60,000
& Clinical Research Coordinator Lab
1,596 ft²

Home Health Lab - \$8,000
383 ft²

Anatomy Lab - \$177,000
455 ft²

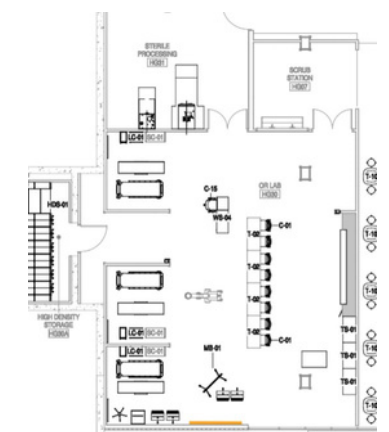

Respiratory Lab - \$300,000
2,000 ft²

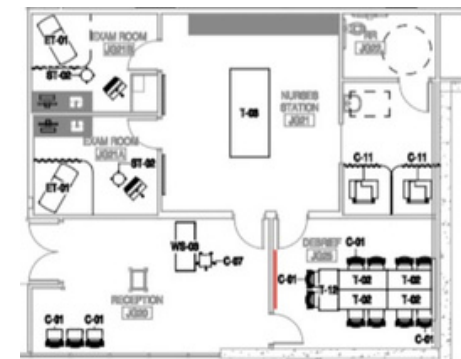

Medical Office Lab
\$11,000
1,009 ft²

Medical Lab Technology
\$300,000
1,596 ft²

Surgical Technology Lab
\$492,000
1,780 ft²

800 graduates
per year equals

1,040,000 patient
contacts annually
